

Introduction: Math & Measurement

Unit: Math & Measurement

Topics covered in this chapter:

The International System of Units	70
Scientific Notation	77
Using Math in Calculations	81
Conversions (Factor-Label Method)	88
Dimensional Analysis	93
Logarithms	99

Standards addressed in this chapter:

Massachusetts Curriculum Frameworks & Science Practices (2016):

This chapter addresses the following MA science and engineering practices:

Practice 4: Analyzing and Interpreting Data

Practice 5: Using Mathematics and Computational Thinking

Practice 8: Obtaining, Evaluating, and Communicating Information

Use this space for summary and/or additional notes:
